SKIN CONSULTATION R500

Chemical peels

Skin peels use naturally derived fruit acids to gently exfoliate the surface of the skin and target specific concerns. By removing dull, dead skin cells, peels instantly improve tone, texture, hydration, and radiance. They also help manage acne, reduce breakouts, fade dark spots and hyperpigmentation, refine pores, and soften the appearance of fine lines.

Meseostetic peels

- Mesopeel melanostop tranex R1500
- Mesopeel blemiskin R1350
- Mesopeel mandelic R1250
- Mesopeel modified jessneer R1250
- Mesopeel azelan R1400
- Level 2 peels R1500
- Complex peel R1900
- Periocular peel(dark circles) R650

Rejuvenate R2200
Clarity R1800
Boosters R2700

Microneedling

Minimally invasive treatment to rejuvenate the skin.
A device with fine needles creates tiny punctures in the top layer of the skin which trigger the body to create new collagen and elastin. This results in an improved skin texture and firmness as well as a reduction in scars, pores size and stretch marks.

Pixel peel R3500
Specialised serums R2250
Retinol serum R2500

LED TREATMENT

LED light therapy is a relaxing, non-invasive skincare treatment with multiple benefits. It uses specific wavelengths of light to stimulate natural processes in the skin, helping to reduce signs of aging, fight acne-causing bacteria, and lighten pigmentation.

This treatment can be done on its own or combined with other services for enhanced results.

Dermablading

Dermablading is a precise exfoliation technique that removes the top layer of dead skin using a sterile surgical blade. This process stimulates cell regeneration, improves the appearance of acne scarring and hyperpigmentation, and leaves the skin instantly smoother and more radiant.

In addition to removing fine facial hair, dermablading enhances product absorption and results in skin that feels softer, healthier, and silkier to the touch.
